

INSTALLATION INSTRUCTION

LED REFLECTOR LIGHT

INTRODUCTION

Thank you for selecting and buying V-TAC LED product. V-TAC will serve you the best. Please read these instructions carefully before starting the installing and keep this manual handy for future reference. If you have any other query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best.

INSTALLATION INSTRUCTIONS

Make sure there are no rafters or joists where you intend to locate the light fitting. Ceiling space is also required to accommodate the body of the lamp fitting.

- Make a hole.
- Remove the LED drive cover.
- Tighten the power supply input line to the terminal stage (Supply connection and other external wiring conductor shall be at least 0.75mm).
- Tighten the LED drive cover
- Up right the spring and then put the downlight into the hole.
